

As a Flight Attendant for a major airline I MUST OBJECT to the use of cell phones on board commercial aircraft. The main reasons are:

- There is no hard evidence that cell phone use does not interfere with navigational instruments.
- Cell phone use would enable terrorists to coordinate a plan of action more effectively.
- The NPRM would leave it up to flight attendants to police the use of cell phones onboard the aircraft compromising our ability to maintain a safe, secure cabin environment and to conduct emergency evacuations.
- It would make an already tense cabin environment even more stressful.

Thank you for your consideration.
